The Biba Clipper staff

The holiday that we celebrate this week is often overshadowed by cook-outs, red, white and blue decorations, and beach trips. But the real significance of that date in history has deep meaning for each of us. A brief history of the years preceding the Declaration of Independence is in order to understand the day we celebrate as Independence Day.

The colonists experienced the French and Indian War, the Boston Massacre, the "shot heard 'round the world" at Lexington and the battle of Concord the british tasks by the colonists except one, New York, votworld" at Lexington and the battle of the problems and burdens. "Nothing new under the sun" is an apt observation when looking back to colonial times.

It is hard to imagine such a drastic change in life as we know it. Modern day America is immersed in status quo to some degree. The patriots and colonial Americans of old had everyday duties and lives, just as threatened when they took on their dream. "The Spirit of '76" is captured in the tale of John Hancock, who signed his name large on the Declaration so that the British could read it without putting on spectacles.

world" at Lexington and the battle of ed to pass the Declaration. "We hold these truths to be self evidence that all men are created equal, and they are endowed by their Creator with certain unalienable rights ..." These words and those that follow in the Declaration of Independence loom so large to us. What they say is said so powerfully and the words themself are connected together so beautifully. O' if we could have such command of the English language.

We take a little time and space to draw attention to a legal notice published last week and this week. It is the announcement of a zoning board meeting to set zoning on all that property added to the city limits in 1987. Nothing is mentioned in the announcement about just how the property is to be zoned but plans are to zone it all, according to the notice. We strongly suggest every person with property in the designated areas make plans to attend that meeting on Tuesday, July 11th and be sure their interest are properly addressed. The meeting is at 5:15 p.m. at the Elba city hall. It is much better to let your feelings be known before zoning lines are designated than to wait until later and go to the time and expense of getting them changed ... and far better than just sitting back and complaining.

Liberal U. S. Supreme Court Justice Thurgood Marshall has announced his retirement from the court. The announcement surprised us because he has previously said he would never retire. We also have mixed emotions about this retirement. While we consider ourselves conservative, we probably fit better in the moderate group. That would explain why we are concerned that the new conservative majority on the supreme court may make so much new straight-lace laws that all of us will start voting for Teddy Kennedy's bunch. We still dream of a judge or group of judges who reads the law as it is written rather than continually trying to remake the rules into their own personal statements.

We thought the volcano eruption in the Philippines would be a good arguing point for lower lease payments on the military bases if America de
ing the week beginning Tuesday, activity.

June 25, 1991, investigated the folcided to stay and rebuild. We were kinda surprised to read that that bunch over there is in fact asking for MORE money. Their reasoning is the massive damage their country suffered from the volcanic fallout of Mount Pin-rassing communication, one DUI, Disturbance in Kennedy Estates atubo. Foshee speech supports gasoline tax for new state highway program

The following is taken from a radio system helps the farmers in the broadcast presented by Senator Foshee on Sunday, June 23, 1991. Wiregrass, the businessmen in Birmingham...the coal miners in Jas-Hello. My name is Crum Foshee and I represent Covington, Coffee and Escambia counties in the state senate. I want to talk to you this morning about something that I think is the key to Alabama's economic future...The Highway Plan being considered by the Alabama Legislature.

Alabama is at a crossroads and we have to decide which road to take. We have two choices...we can take...a narrow two-lane road...with pot holes...and unsafe bridges that school buses loaded with children must cross every day. That road dead ends at a huge sign that reads: Status Quo. It leaves us miles behind our sister southern states who are our sister southern states who are dred miles of roads that will put evespending millions of dollars every year on roads. It leaves us stranded in our quest for economic development and it leaves us at the bottom of the hill in our fight to improve ed-

That is what the Highway Package really is...it is a map of our fuchildren and parents to travel on safe

home to work...there are no status quo signs at the end of this road...the sign at the end of this road says: Congratulations..Congratulations for taking positive steps to move Alabama forward. Congratulations for congratulations for the twenty first century...or we can bama forward. Congratulations for congratulations for the twenty first century...or we can be a forward. Congratulations for congratulations for congratulations for congratulations for the twenty first century...or we can be a forward. Congratulations for congratulations. having the courage to put the needs street. Please ask your senator to in Holmes County, FL, where he married to the former Jamie Sulliof the state ahead of special interest. chose the four-lane road. of the state ahead of special interest. Chose the four-lane road.

Congratulations for finally realizing that having a quality transportation converted to talking with you again.

Chose the four-lane road. Thank you for your time. I look forward to talking with you again.

of the hill in our fight to improve education.

Study after study after study has proven that industry will not follow at two lane road into an area. The only way we will be able to keep our children in Alabama is to create jobs...and I am not talking about minimum wage jobs...I am talking about the kind of high tech businesses that have flocked to North Caroline, Georgia, Florida and other states that had the foresight to improve their highway system. If you had a choice between locating a business on a curvy, two-lane road that crawls through the Black Bell...or a four-lane highway that connects west Alabama with the state's sandy white beaches, the Captiol City and the north Alabama mountains...where would you go???

We have all heard the stopiolic City and the north Alabama mountains...where would you go???

We have all heard the stopiolic City and the north Alabama way by another Southern state that had a better road system... a better plan for its future...

That is what the Highway Package really is...it is a map of our further of the state served with the states served and served with the states served and served the state served with the states served and served with the states served

The One Nation Under God campaign is moving toward its climax, with the major pieces in place for this largest evangelistic effort ever among churches of Christ.

A two-hour television talk-show program will be shown on June 30. Over 2,000 television cable systems have been signed. The program is now being scripted and speakers have been selected. It will feature a studio audience who will pose questions to panelists; a host will move throughout the audience and direct the questions to the speakers.

The Pressbox

By Ricky Mularz

Melissa is much more comfortable at the softball field or in the pool than she is anywhere else; however, every once and a while she decides s wants to enter a beauty pageant, I usually say "No," but last week I agreed to let her enter the Little Miss World Domino Pageant, in Andalusia, and reluctantly went over to the pageant Friday night with the family. Melissa h always been a beautiful little girl (if you don't believe it, just ask me), and Friday night she was prettier than ever. She didn't win, but did get first runner-up and brought home a trophy, flowers and a \$50 savings bond. Her reaction? She was mad because the girl that won got a \$100 savings bond!

ELBA GIRLS SHINE IN ALL-STAR TOURNAMENT

The Elba All-Stars hosted the 12 and Under District Softball Tournament last weekend and really showed everyone how well they could play as they claimed three wins before being ousted and placed third in the 12-team

The All-Stars practiced just about every day for two weeks getting ready
Hawkins-Williams Park, in Elba, in hopes of improving over last years showing, and the girls not only improved, but looked down right good in the process. The All-Stars opened the tourney against Opp, which was coming off a 37-4 win over Geneva, and promptly handed Opp a 10-9 setback. The gals let a 4-run seventh inning spell defeat against Troy in a 7-6 loss, but rebounded with their best ball of the day as they surprised Eufaula, which had defeated Dothan, 16-9 and Andalusia, which had pounded Enterprise, 11-7. A loss to Troy ended cans, then clobbered Enterprise 13-3 the tourney title hopes, but did little to dim the excitement of the fans and players over the outstanding play during the tournament.

All the members of the Elba All-Stars and their coaches are to be commended for their fine showing in the tournament and for the way they represented our city. Congratulations on a great job!

GIRLS TOURNEY BRINGS BIG CROWD TO TOWN

I got to work at 7:00 a.m. last Saturday morning and was shocked to find eight cars in the parking lot and a tent already up outside the fence. Sure the city was hosting the girls 12 and under softball tournament, but the tourney didn't start until 9:00 and there were people at the park two hours early. That turned out to be simply a preview of things to come as close to 600 fans and over 225 players and coaches packed Hawkins-Williams Park for the daylong activity. The parking lot was filled by 8:30 in the morning and stayed filled all day, despite the fact cars were parked on every level spot of grass along the road and adjacent to the parking lot.

The tourney wrapped up at 10:00 p.m. and it was a very busy day for everyone involved with the tournament, but to hear the nearly-unanimous compliments about the park and the fields made it all worth while.

KEEP SUPPORTING ALL OUR ALL-STAR TEAMS

All-Star teams from Elba will hitting the road in coming days for trips to Andalusia (Babe Ruth 14-15), Troy (Dixie Youth) and Opp (Babe Ruth 13), and I hope fans, as well as parents will travel with the teams and show their support. These youngsters are under a great deal of pressure at tournament games and it makes a difference to hear cheering from the stands. C'mon July 12-13, in Anniston. out and let'em know you care!

MEN'S SOFTBALL SEASON DRAWS TO CLOSE

The Men's Softball League season came to an end last week with English Diversified taking the league title, ahead of Mike's Gym-Hudson Farm, Catrett Logging and Red Brahma. Mike's Gym-Hudson led for most of the 13-year old Babe season, but fell to English late in the year and then disbanded the team and forfeited its final three games. A league tourney was planned prior to the late season demise of Southern Express and Mike's-Hudson, and teams will be contacted this week to determine if the tourney is still on. Oh well. I guess you could say it was

SPORTS FANS! KNOW.....

Ever wonder why golf courses have 18 holes instead of some other number?...Actually, in the early day of golf's development in England, different courses did have different numbers of holes...For example, when the first British Open was played, at the Prestwick Club in 1860, that course had only park, in Elba. 12 holes, some had 8, some had 14...But the most famous course, the St. Andrews Club of Scotland, just happened to have 18 holesand in the years following 1860, other courses increased to 18 holes merely to follow the pattern set by St. Andrews...And, thus 18 holes became the standard for golf

* * * * * One of the strangest teams in baseball history was the 1930 Philadelphia Phils...All 8 regular players on the team batted over 300 that year--yet the team fin-

shed LAST place! * * * * *

How fast could you drive a car in the old days?...Well, the first auto race in the United States was hel in Chicago on Thanksgiving Da 1895...It was a 50-mile race, the winning car, driven by fam inventor Frank Duryea traveled a he average speed of--believe not--7-1/2 miles per hour!

new and improved 'Good Cents' home? Notice the difference in comfort. No more drafts or hot and cold spots. That's the difference you feel in an energy-efficient home. Your Good Cents representative can give your home an energy efficiency audit and make recommen dations on improvements. Notice the difference in your utility bills. There are many energy-saving features you can add energyefficient heating and cooling equipment, ceiling insulation, new technology doors and windows, heat pumps and new heat recovery units. They will make a money-saving difference in your monthly utility bills. Ask about Good Cents rebates and special offers. Notice the difference in value. Good Cents improvements add to the value of your home. That can make a big difference when it comes to resale time. What other differences are there? You'll never know unless you call! Find out what the difference Good Cents features can make in your home. Find out how much you can save. The energy audit and the information are free!
